"Blue Highway"

Another highway, another heartache
Travelin' man routine
8 days from home & all alone
In this whining time machine
I spend a mile thinkin' 'bout you
Only to praise the blues
My eyes are sad on the road ahead
While my heart's at home with you

CHORUS:

On this blue highway
Between your love & me
Nothin' but a blue highway
As far as my heart can see

Another evening, one more motel
I phone to tell you good night
Not much to say but "It's OK"
'Cause your voice will hold me tight

(chorus)

I know you're worried 'bout my night life
Wanderin' coast to coast
But time & time I leave behind
The one I love the most

(chorus x2)
