Somewhere in time

We met on timeless hills

And in the evening mist we kissed

And time stood still

Before the dawn, we found forever

Moments are timeless when I feel your caress

You'll always be inside of me

And I know when love is true

It's always with you

Somewhere in time

I came to realize

Love never goes

Love never goes

Once it has touched your heart

Just like the strength of wine that's left

As two lips part

A taste of love will linger after

I know the meaning of all that I see

You'll always be inside of me

And I know when love is true

It's always with you

Somewhere in time

I came to realize

Love never goes
