Well, I see you've got a new boyfriend
Got your mixed-up husband too
I got 25 dollars in my pocket
Want me to spend it all on you

But I know that you cheat on all of us
That's just the way that you do
Hey girl, I don't care where you've been
I know I've been there too

Woo baby, do you think that that's fair?
Do we really have to be so lonely and so scared?
Woo baby, do you think that that's fair?
Well, I know this is up to me and you
We can make this thing turn out like we want to

Well, last time I thought about you
Didn't really think that much
And the last time we spoke you said
You were afraid of my touch

And then you went your way
I stumbled down a highway, I want mine
You know I think it's funny
The way infatuation gets beat up by time

Woo baby, do you think that that's fair?
Do we really have to be so lonely and so scared?

Well, I see your life has evolved
Into one big masquerade
And all of those old fools you used to run to
They shot you full of old age

Well, don't go expectin' too much, no no
From your new love affair
Probably fall flat on it's face
No one to pick you up, no one who cares

Woo baby, do you think that that's fair?
Do we really have to be so lonely and so scared?
Woo baby, do you think that that's fair?

Well, I hope this is up to me and you
We can make this thing turn out like we want to
