I remember the day when the snow melted away and  
the great snowman was wed  
He said yes I do and little Linda siad it too and the  
great snowman was wed

Now Jimmy Jones was the snowman's name he put all  
the other local lovers to shame  
He had good looks and a big fine car he went around  
breaking all the girlies' hearts  
Till one day the great snowman found Linda Lou  
started melting him down  
He bought the ring and they set the day and the great  
snowman started melting away  
I remember the day...

Now the great snowman and his loving spouse lived in  
the little subdivision house  
They've got six kids and his mother in law and  
expecting another kiddie in the fall  
His old Cadillac needs a paint retouched it's full of  
baby diaper and bottles and such  
The great snowman has outgrown all his flashy cuddy  
clothes  
I remember the day...
