Looks are deceiving words are too so what can two  
strangers in love do  
Both on the rebound both on the mend so where do two  
strangers in love begin  
Both are in love though they've just met but both are  
too cautious to show it yet  
Smiles are deceiving kisses are too so what can two  
strangers in love do  
Both need a lover need a sweetheart but where do two  
strangers in love start  
Both over anxious to forget their past  
But both afraid to fall for fear this too won't last  
Both need a lover need a sweetheart but where do two  
strangers in love start  
Smiles are deceiving kisses are too so what can two  
strangers in love do
