We could stay right here
Make it last a lifetime
We could be a great ride
This won't be our last time
We would stay right here
And make it last a lifetime
Don't you feel great now
This won't be our last time

We could stay right here
Make it last a lifetime
We could be a great ride
This won't be our last time
We would stay right here
And make it last a lifetime
Don't you feel great now
This won't be our last time

Embrace me
Tell me all your secrets
Embrace me
We would last a lifetime
Embrace me
Tell me all your secrets
Embrace me
We would last a lifetime

We will last a lifetime
We will last a lifetime
