The sun is slowly fading in the western sky
Sometimes it takes forever the day to end
Sometimes it takes a lifetime
Sometimes I think I'll never see the sun again
There's a heavy fog between me and the mountains
It's enough to make a grown man sit and cry
It's enough to make you wonder
It's enough to make the world roll up and die
I think it's kind of interesting the way things get to be
The way the people work with their machines
Serenity's a long time coming to me
In fact I don't believe I know what it means
In the east a shaded moon is hanging lazily
I do believe I saw the old man smile
I do believe I did
I do believe he's been laughing all the while
I think it's kind of interesting the way things get to be
The way the people work with their machines
Serenity's a long time coming to me
In fact I don't believe I know what it means
Anymore

The sun is slowly fading in the western sky

Sometimes it takes forever the day to end

Sometimes it takes a lifetime

Sometimes I think I'll never see the sun again

The sun again, sun again woo oo oo .
