Oh, at first it was just like heaven in your heart and in
your arms
And paradise discovered in the sweetness of your
charms
Yes, and every day a miracle to awake and be with you
And every night in your embrace another dream come
true

But castles sometimes crumble some rivers still run dry
And fairy tales are witches tales when the truth
becomes a lie"
And a pocket full of promises won't buy a diamond ring
And every word you said to me just didn't mean a thing

It's over now, you've gone too far I can't take anymore
Be careful now - don't hurt yourself when you walk
through that door
I can hardly stand to look at you it makes me want to
cry
Get your tongue out of my mouth because I'm kissing
you goodbye!
Now I suppose I'll never know why things turned out this
way
And why the one you love the most is the one you drove
away?
Yes, and I suppose I'll never, ever really understand
How I could think that you'd make me a happy married
man

So now I sit and contemplate the reason for it all
The climb to heights of ecstasy the failure and the fall
If a broken heart is purposeful it's in the lesson learned
No matter what the reason is it hurts when you get
burned

Now I don't care, I don't think I'll ever love again
"Kemosabe" used to me good and trusted friend
But now it stands for therapy and all the tears I cry
Get your tongue out of my mouth 'Cause I'm kissing
you goodbye!
Bye, Bye. Bye, Bye.
