This song was first released on the Some Days Are Diamonds album. It is the only album it has been released on.

Down, down, down deeper into love
All around, I can feel your love
All my life I've been dreaming
Night into morning
Till you opened my eyes

Love, love, love such a mystery
Golden light shining down on me
Soft and warm as the warming
But I never saw it
Till you opened my eyes

Floating in circles, I'm flying
It feels so good that I'm crying

Down, down, down deep inside of me
Love sweet love's all that I can see
Golden light keeps on shining
Shining forever, since you opened my eyes

Words and Music by Alan Rush, Randy Cullers and
Dennis Linde
