[Sleepy Brown]

Just got paid and I'm feeling right  
Bout X'd out on a Friday night  
My girl paging me but she'll gone be allright  
Cause I'm falling through later on tonight  
Now looka here, before we go  
We gotta stop by seafood galore  
Two piece whiting and a shrimp to go  
A Large lemonade now I'm out the door  
Bob's car wash keep my white walls tight  
Just put down on the Holyfield fight  
Ride by the hill holla at E. Neil  
East Point raise ya flag been hill been real

[Chorus]

Weeastpointin' x5

Tell me where you from baby (East Point)  
Tell me where you from (East Point)  
Tell me where you from baby (East Point)  
Tell me where you from (East Point)  
Tell me wehre you from baby (East Point)  
Tell me where you from (East Point)  
Tell me where you from baby (east Point)  
Tell me where you from (East Point)

[Sleepy Brown]

Flying like a bird all thurgh the night  
Ain't gone stop til the morning light  
Suckers looking crazy casue they want my ride  
But lil do they know that I pack my side  
Cause my 98 oldsmobile  
With bullets chrome the real real  
So split that peel and bump that joint  
Forever hollerin East Point  
I said my 98 oldsmobile  
With bullets chrome the real real  
So split that peel and bump that joint  
Forever hollerin East Point, Ungh

[Chorus]

[Cool Breeze]

My name cool breeze and I can't lie  
I'm still teacher's pet at Cutta high  
And I'm real laid back and like one of a kind  
And if I leave East Point it'll be to find  
Rico used to tell me when I turned nineteen  
That Imma be big in the south like buffalo wings  
And I been blowing up the spot since the single came  
out  
And I'm starting to make a lil money it's getting hard to  
count  
And if I carry any with me it's in a small amount  
And I keep the rest in a stash by my auntee house  
So check the internet for when I hit your local stages  
of the the dirty south pages under south coast phrases

[Chorus to Fade]
