Now that it's done  
I can see we've got it all back together  
Signs in your eyes, in my smile  
Show it all, show it all  
Sometimes it all seemed much better  
Nobody ever to guide you  
Always so easy just wanting to please with your eyes

Travelling unknown, singing songs  
Doing all with whatever  
We'll be right, we'll be wrong  
But we'll do it all, do it all  
Don't know what lay down beside me  
Slowly taking me over  
Changing my mind without reason or rhyme from that  
goal

Oh, I'd work it out slowly  
Oh, I'd take it as it comes  
Oh, I'd talk it all over  
Oh, shove it back where it comes

In my mind, I can find

All I need for whatever  
And as such, don't need much  
To get me by, get me by  
A smile, a laugh can be better  
A million or two just in case  
I don't feel at ease and there's something it'd please  
Me to find

Oh, I'm working it slowly  
Oh, I'll take it as it comes  
Oh, I'll spread it all over  
Oh, shove it back where it comes

Have you been done  
Are you one or don't you know altogether?  
Don't you think it all stinks  
Or do you know not at all?  
Don't wait for someone to guide you

Maybe it won't seem much better  
Take what you can, there's time in your hands passing
