(Alan Vocal)

May I see your papers please the secret agent said
It's very hard to keep your cool when there's danger up
ahead

You took a plane from Washington to face the other
side

Now your agency is gone and there's no where left to
hide

Left for dead

Down in the red

Left for dead and gone

What don't kill us will make us strong

(Steve Vocal)

30 days of dusty trails under the desert sun

You got in trouble in town last night now you spend
your days on the run

Banditos spot his silhouette the sun was in his eyes

They took his money, horse and gun now the buzzards
fill the skies

Left for dead

Down in the red

Left for dead and gone

What don't kill us will make us strong

(John Vocal)

Me and my girlfriend going steady she's the light of my
life

At a candle light dinner tonight I'm gonna ask her to be
"my wife"

We talked about our hopes and dreams and a love that
never ends

Then she said those fatal words to me " why can't we
just be friends

Left for dead

Now he's brown bread

Left for dead and gone

What don't kill us will make us strong

And a part of us lingers on
