Like wind blown grass  
In fields of time  
My love for you  
It turns my life around  
Through clouds of circumstance  
Like morning mist  
That dims the trees  
I here your voice  
Withou-out a sound

And so we share  
Ou-our common bond  
And face the turmoils that surround  
Till time brings change  
Till time brings change

Like August winds  
That send the rain  
Your love for me  
It fills my empty cup  
Sometimes a man  
Might want to die  
And giving in  
And giving up  
Might fi-ind his life

And so although  
It might not show-ow-ow-ow  
You turn my pain to joy  
Till time brings change...  
Till time brings change

And so although  
It might not show-ow-ow-ow  
You turn my pain to joy  
Till time brings change...  
Till time brings change...  
Till - time - brings - change
