Oh the midnight, need a searchlight
Oh the midnight, need a searchlight

I walk along the rocky shore, the place I lost myself
I search the water, look in the sky, I hear the cries for
help
I trace my footsteps down to the sea but then the path
disappears
Here in the darkness, I'm runnin' blind
Been stumblin' for all of these years

Oh the midnight, need a searchlight
Oh the midnight, need a searchlight

What was the demon that made me run, can I ever
hope to understand?
I hear my voice, echoes on the wind, I try to reach out
with my hand
Without a light, I might be here forever, lost for all
eternity
There in the darkness, slippin' through my fingers
The face that smiles back in me

Oh the midnight, need a searchlight
Oh the midnight, need a searchlight

Oh the midnight, need a searchlight
Oh the midnight, need a searchlight

Oh the midnight, need a searchlight
Oh the midnight, need a searchlight
