[Lyrics/Forte - Music/Forte-Codfert]

Crossing the borders of an enchanted dream  
Silver dust falling on my hands  
Empty spaces of a new horizon  
Frontiers to another land

See the stars come closer,  
Enlightening your desire  
Follow the wisdom of the light

I'm not afraid, take my hand  
Show me what's behind the end  
Oceans of pureness might stand

[Refrain]  
Is there any reason to fall,  
Cross oblivion, meets the afterworld  
Mesmerizing sights of unknown angels,  
Takes me away to the next profundis

As abstarct as it can be  
I see myself lying in the underworld,  
Nothing seems real over me,  
But still I know my shadow's watching me

Kingdom of sleep, deepness of earth  
I will let time decide for me  
The promised land I will find,  
When Cronos will steal my mind

[Refrain]  
Is there any reason to fall,  
Cross oblivion, meets the afterworld  
Mesmerizing sights of unknown angels,  
Takes me away to the next profundis
