Live a life less ordinary  
Live a life extraordinary with me  
Live a life less sedentary  
Live a life evolutionary with me  
Well I hate to be a bother,  
But it's you and there's no other, I do believe  
You can call me naive but...  
I know me very well (at least as far as I can tell)  
And I know what I need

The night you came into my life  
Well it took the bones of me, took the bones of me  
You blew away my storm and strife  
And shook the bones of me, shook the bones of me  
By the way, I do know why you stayed away...  
I will keep tongue-tied next time

Live a life less ordinary  
Live a life extraordinary with me  
My face had said too much  
Before our hands could even touch  
To greet a 'hello'  
(So much for going slow...)  
A little later on that year  
I told you that I loved you dear  
What do you know?  
This you weren't prepared to hear  
I'm a saddened man, I'm a broken boy  
I'm a toddler with a complex toy  
I've fallen apart, since the ambush of your heart

The night you came into my life  
Well it took the bones of me, took the bones of me

You blew away my storm and strife  
And shook the bones of me, shook the bones of me.  
By the way, I do know why you stayed away  
I will keep tongue-tied but...

Honey understand, honey understand  
I won't make demands  
Honey understand, honey understand

We could walk without a plan.  
Honey understand (honey), honey understand  
I won't rest in stone all alone  
Honey understand, honey understand  
I'm all ready to go  
But you already know...

Live a life less ordinary  
Live a life extraordinary with me.  
If I could name you in this song  
Would it make you smile and sing along?  
This is the goal: to get into your soul  
If I could make you dance for joy  
Could that be the second-chance decoy?  
The bird-in-hand I would need  
To help you understand?

The night you came into my life  
well it took the bones of me, took the bones of me  
You blew away my storm and strife  
And shook the bones of me, shook the bones of me  
By the way, I do know why you stayed away  
I will keep tongue-tied next time
