Weave me through the tall grass
Jab me, let me know that I'm still alive
Last trip the boy will be taking
Everything from here is crazy

But I know one day, I will live and wonder
She will, she'll learn to walk all over again
They will gather once again and

Pretend, did you think
That one day it would come to this?
Sitting in a stranger's chair
Staring at the whitewashed wall

Waiting for the inspiration
Invitation to leave this place
Hoping there's a better space
To occupy my fall from grace

But I know one day, I will live and wonder
She will, she'll learn to walk all over again
They will gather once again and

Hide over here, same as it ever was
I've never been through this before
I've never been through this before
Tell me I'm wrong and keep me here
Tell me I'm wrong and keep me here

Am I wrong? Am I wrong?
I am wrong, I am wrong
I am wrong, I am wrong
I am wrong, I am wrong

But I know one day, I will live and wonder
She will, she'll learn to walk all over again
They will gather once again and

Keep me in the tall grass
Jab me the one still sitting in that chair
First trip the boy is still taking
Run and hide but pretend your exploring

'Cause I know one day, I will live and wonder
She will, she'll learn to walk all over again
They will gather once again

But I know one day, I will live and wonder
She will, she'll learn to walk all over again
They will gather once again and
