"Walking In The Sun"

Visit "[Walking In The Sun](#)" on MotoLyrics.com

Walking in the sun
We think of all the places
We have been
Just walking in the sun
Full circle back
To our family and our friends

The world is bright before your eyes
And you know it's full of surprise
The world is curved, just take the turn
And you know it's full of surprise
The world is round
And the further out we go
We're one step closer to home
We're one step closer to home

Everyone is here
A warm embrace
If we should ever fall
Worry disappears
We're safe inside the greatest place of all

Walking in the sun
We think of all the places
Left to go
But nothing else compares
To our family and our friends that bring us back home
