"Wanderin' Around"

Put me in new direction.
Point me to the edge of the world
With a warm heart and cold complexion
I'm feeble with a flag unfurled
Where to today?
Miles away

And as I sigh the long goodbye,
what will be found wanderin' around?
And as I sign the long goodbye,
what will be found wanderin' around?

Sister, where you going?
I have one question, maybe three
Sister is it showing?
We race away from who we used to be
Where to today?
Miles away

And as I sigh the long goodbye,
what will be found wanderin' around?
And as I sign the long goodbye,
what will be found wanderin' around?
