One, two, three...

Know when you're heating the places
Bend down and eat your shoelaces
Next move, you gotta decide what's right

Kill your Momma
Kill your Daddy
I'm the beastman so understand me
Understand me

Hey, the way it goes mauling in the wake of night
Jumped out of your old fish mask today

When you told me I was out of sight
I almost died right in your lap today
When you told me I was out of sight
I almost died right in your lap today
