I'm going away, forever,
I'm going away, forever,
Never coming back this way,
Never coming back to this place.

What I need is a heaven,
What I really need is a heaven,
A place to go where I can really be,
A place to go where I can really be
Where I can really be.

Dreaming my life away, counts for nothing,
Dreaming my life away, counts for nothing,

But nothing ever is the end,
No, nothing ever is the end.

It's sure been a full life for me, yeah
It's sure been a full life for me, yeahh
It's sure been a full life for me, baby, its sure been a
full life for me
