You took it to heart
That is my love
And I thank heaven that I found you
I thank the stars above
The way that it happened
Well it might sound strange
But after the hurting is all done
There comes a change
So I went down into myself
Where any fool could see
All the love I had to give you
Wasn't getting out of me
It was an inside job
Baby we worked it out
It was an inside job
Baby we worked it out
I didn't know just what was wrong
All of my lights went out when you were gone
I called and you came
Right to my side
But you couldn't help me, sweet baby
It was my pride
So I went down into myself

Where any fool could see

All the love I had to give you

Wasn't getting out of me
It was an inside job

Baby we worked it out

It was an inside job

Baby we worked it out
Lost and alone, but now I've found

Well, it's from the inside out

The walls come tumblin' down

I didn't surrender, but now I see

Baby when I turn my love over

Sweet love comes back to me
So I went down into myself

Where any fool could see

All the love I had to give you

Wasn't gettin' out of me
It was an inside job

Baby we worked it out

It was an in inside job

Baby we worked it out
