Lyrics: Magnus Sveningsson

A common line

I closed my eyes

But couldn't let it go

The perfect time

I dropped my guard

And lost but won somehow

It's rather sad

It feels like we've never

Made it together since

One word ahead

And you'd be dead

I held you in my throat

I stumble by

Attached to you

I couldn't let it go

It's rather sad

It's really sad

It feels like we've never

Made it together since

We'll never have the guts

To discover

We'll choke on it and die...
