I'd catch some stars for you  
And just for you  
I'd paint the grey sky blue  
And just for you  
So don't tell me you want the rain  
From a cloudy sky  
To wash away the pain  
That I've given you again  
I've always tried to find  
What satisfies your mind  
But I will never know  
Where you are to go  
But I want you to know  
Do you want a golden ring  
I would buy you anything.  
I'd read some poems for you  
Just for you  
I hope they won't make you blue  
Like they used to do  
So please tell me they're like the rain  
From this cloudy sky
