"Death Certificate"

Visit "[Death Certificate](#)" on MotoLyrics.com

A grim myriad, a gray kaleidoscope
Sterile, constricting
Born and die, institutionalized
A bleak epitaph, an apologue so sad

Cross indexed, cross dissected
Cross referenced, contabescence

Cross indexed, cross bisected
Cross referenced, certificate of death

Machine coded, reduced to hard memory
In a data base
Digitalized, statistical obituary
You only legacy, your final resting place

Cross indexed, cross dissected
Cross referenced, contabescence

Cross indexed, cross bisected
Cross referenced, certified dead

Cross indexed, cross dissected
Cross referenced, contabescence

Cross indexed, cross bisected
Cross referenced, certificate of death
