(Music: Steer)

(Lyrics: Walker)

You should never take too literally what you read

Misinformation, distortion, make belief

Fabrications, half truths implied

Misquotations, out of context and lies

"I promise to tell the truth

The whole truth and nothing but..."

Lies - you believe them all

Lies - you swallow them whole

Lies, lies, half truths misinformation and...

Lies - you believe them all

Lies - you swallow them whole

Lies, lies, half truths misinformation and...

..lies

(lead)

Fact and fantasy united as one

Real power stems from the barrel of a pen

Living memory can easily be erased

The pen is mightier than the sword

Yet with no blade

"I promise to tell the truth

The whole truth and nothing but..."

Lies - you believe them all

Lies - you swallow them whole

Lies, lies, half truths misinformation and...

Lies - you believe them all

Lies - you swallow them whole

Lies, lies, half truths misinformation and...
