(Music: Steer)

(Lyrics: Walker)

Firmhand, iron fist, an ardent dexterous weeding
process

Overlord with a strong grip, viral containment, a
harvesting grid

Firmhand - unnatural selection is applied

Firmhand - the final solution, eugenocide

Hate is the law, love under will

Hate is their law, love under will

Transfusing, contagion breeds

Multi-cultured epidemic is released

Held firm, crushing grasp

A painstaking, callous, arduous task

Firmhand - indiscriminate selection is applied

Firmhand - the final solution, eugenocide

Hate is the law, love under will

Hate is their law, love under will

With slight of their firmhand

And deviancy is cleansed

(lead)

Firmhand - unnatural selection is applied

Firmhand - the final solution, eugenocide

Hate is the law, love under will

Hate is their law, love under will

With slight of their firmhand

With the might of their firmhand

With slight of their firmhand

And deviancy is cleansed
