Orally force fed until cirrhosis is induced
Fatal renal failure bleeds like a sluice
Spewing blood as the gallbladder extrudes

Alcoholic poisoning, bloated lobules burst
Toxins flood the stomach in diffidence submerged
Coughing waste as the wrecked colon tears

The blood now critically proof
Neural cells fatally quenched
Drowning in split retention
Hepatic tissue ferments

Poisoned retention with intoxication
Inflamed nephrons burst, your condition's getting worse
Chronically diffused, your liver you will lose

Bodily distillation as emerged flesh reacts
With alcoholic contents in your urinary tract
Dripping fluid as the decrepit appendix weeps

Matter turns to fluid, intoxicating ablution
Biliary dehydration, as innards turn to solution
Bleeding urine as the inflamed bladder rips

The blood now critically proof
Neural cells fatally quenched
Drowning in split retention
Hepatic tissue ferments

Contamination, foul circulation
Alcohol force fed, goes straight to your head
Brain tissue damaged, fused with alcohol sewage

In a stupor you die, your brain lobes you fry
In a stupor you die, your brain lobes you fry

The blood now critically proof
Neural cells fatally quenched
Drowning in split retention
Hepatic tissue ferments
