"Hepatic Tissue Fermentation"

Visit "[Hepatic Tissue Fermentation](#)" on MotoLyrics.com

Orally force fed, until cirrhosis is induced,
Fatal renal failure, bleeds like a sluice,
Spewing blood as the gallbladder extrudes,
Alcoholic poisoning, bloated lobules burst,
Toxins flood the stomach, in diffidence submerged.
Coughing waste as the wrecked colon tears.
The blood now critically proof, neural cells fatally
quenched,
Drowning in spilt retention, hepatic tissue ferments.
Poisoned retention, with intoxication,
Inflamed nephrons burst, your condition's getting
worse,
Chronically diffused, your liver you will lose.
Bodily distillation, as emerged flesh reacts,
With alcoholic contents, in your urinary tract.
Dripping fluid as the decrepit appendix weeps.
Matter turns to fluid, intoxicating ablution,
Biliary dehydration, innards to solution.
Bleeding urine as the inflamed bladder rips.
The blood now critically proof, neural cells fatally
quenched,
Drowning in spilt retention, hepatic tissue ferments.
Contamination, foul circulation.
Alcohol force fed, goes straight to your head,
Brain tissue damaged, fused with alcohol sewage.
In a stupor you die, your brain lobes you fry
