"Live And Learn"

I came home in the morning
And everything was gone
Oh what have I done
I dropped dead in the hallway
Cursing the dawn
Oh come on son
Why must I burn
I'm just trying to learn

I stared into the light
To kill some of my pain
It was all in vane
Cause no senses remain
But an ache in my body
And regret on my mind
But I'll be fine

Cause I live and I learn
Yes I live and I learn
If you live you will learn
I live and I learn

God kicked you in the head
So I started a fight
Cause I knew I was right
But I learned I was wrong
I remember a slaughter
I remember I fought
For the money I brought
I got blistered and burned
And lost what I earned

But I live and I learn
Yes I live and I learn

I got, I got it now
She's got, She's got it now

I came to one a corner
With some help from a man and goddamn
I don't seem to have learn

That a lady in need is guilty indeed
So I paid and got laid in return
And I don't know what I've learned

Well you get what you give
And hell yes I lived
But if you live as you learn
I don't think I can learn
Oh with the sun in my eyes
Surprise, I'm living a life
But I don't seem to learn
No I don't think I can learn
