Michael Card

Chorus

Don't you know the battle's raging

And you got to join the fight

There's an army of the darkness

And an army of the Light

There's a side that fights for Satan

And a side that's for the Lord

And on this battle field there are no rusty swords

And on this battle field there are no rusty swords

Christ has made the final move

So our side is sure to win

He became like us so we would have

A chance to be like Him

It seems strange so many fall back

When the victory has been won

You just need to ask yourself

Which side you're on

Chorus

There's a fact you need to understand

Before you join our side

You need to know when Jesus calls

He bids you come and die

He's invaded Satan's kingdom

And He's claiming all His own

When the battle's over

He will lead us home

Chorus

And on this battle field there are no rusty swords
