Took a long time to mend
Took a long time to make amends
Funny how the story goes
Strip a man bare and burn his clothes
Time is all I crave
It comes in waves
I will be here until I drown
System's on overload
Goes to bed warm but wakes up cold
What a bloody cross to bare
Time on my hands but I don't care
Days are all the same
They wax and wane
I will be here until I drown
Time is all I crave
It comes in waves
I will be here until I drown
Days are all the same
They wax and wane
I will be here until I drown
Time is all I crave
It comes in waves
I will be here until I drown
