Oh, come crush me now

Don't leave
No one has won this war

This time

No, don't sleep tonight

I'm hurt and ready for fire

Don't leave me up
Alarmed and ready to die

Come on, it's war, come on

Come on, come on, come on

Come on, it's war, come on

Please, I'm almost done

Don't retreat
I've loaded my gun
With blood, with...

Hear the dust roll over the floor

Why must you sleep?
Come crush me now

I'm armed

And ready to die

Come on, it's war, come on

Come on, come on, come on
Come on, it's war, come on

Come on, fight me, come on

Come on, it's war, come on

You look so peaceful when you sleep

Beautiful creep

It's such an easy way to choose

You loose

Come on, it's war, come on

Come on, come on, come on

Come on, fight me, come on

Come on, come on, come on

Come on, it's war, come on

Come on, come on, come on

Come on, it's war, come on

You look so peaceful when you sleep

Beautiful creep

It's such an easy way to choose

You loose
