Words and music by John Kay, Michael Wilk and Rocket Ritchotte

I been fightin' shadows wrapped in camouflage
Screamin' bloody murder at the daily sabotage
And though it's never over, I give up for today
Now all I really want is to see you smilin' face
You're the only one that ever found the way to my heart
And said to my surprise

Now and forever, I'll stay with you
My love will never turn cold on you
We belong together, like fire and heat
Now and forever, you're all I want, all I need

I been chasin' demons, you been racin' luck
We've been facin' deadines tryin' to beat the clock
Tryin' to get together, tryin' to find the time
And quit this makin' love on the telephone line
You're the only one that ever found the way to my heart
You're one in a million, you're second to none
Baby, you're the one

Oh, come lie here by my side
Let the world and all it's troubles be, just for tonight
I think about the lonely souls I've known along the way
I wish them all the joy and wonder of hearing someone
say

Now and forever, I'll stay with you
My love will never turn cold on you
We belong together, like fire and heat
Now and forever, you're all I want, all I need
