The city shells on the land
I'll buy a boat and I'll sail away
I'll leave it all in the sand
I'll buy about & I'll sail on

Noone will know where I've gone
The waves will wash all the signs away
A dreamer's journey begun
The waves will wash all the signs away

Glass dolphins leap in the sun
Glass dolphins leap in the sun

A dolphin swims to my side
And looks at me with a smiling eye
Says come with me to the sea
And find the happiness waiting for me

Dolphin my ocean guide
Guide me into thy life

A city sky in the sea
A thousand dolphins they dance around me
A swimming whirlpool of love
A thousand dolphins are dancing

A lover brother and friend
Oh will this ecstasy never end
The oceans children so free
I'm lost in innocence changing me

Glass dolphins leap in the sun
Glass dolphins leap in the sun

The city shells on the land
I'll buy a boat & I'll sail away
I'll leave it all in the sand
I'll buy about & I'll sail away
