I've been living all my life  
Living just to play for you  
Playing all the words  
I could never say  
But the music says it all  
And you know that it's true, yes you do  
That I have to play the words  
That I can't say to you

It's a life heard through a horn  
It all comes from the heart, you see  
All the ways you stay  
Together & a part of me

All my life I've played for keeps  
What else could I do  
I've played it all for love  
When I played it all for you
