We couldn't start over
How could we begin
To begin playing the game
All over again
We couldn't start over
It isn't a game
We can change all the rules
And lose just the same

We couldn't start over
We don't even know
If we've come to the end
Now where could we go

There's no need to start over
There's nothing to fear
Let's not start over
Let's play it from here

We couldn't start over
We've been there before
Let's be different this time
And try not keeping score

There's no need to start over
There's nothing to fear
Let's not start over
Let's play it from here

We've come a long way
Right or wrong
The season's change with the weather
We've said all we can say
Longing to belong
Going our own way
Together
Together
Together
