Man, I've had a few  
But they wouldn't quite blow me like you  
You gave me your name and signed  
With a halo around my eye

And it hit me like never before  
That love is a powerful force  
Yes, it struck me that love is a sport  
So I pushed you a little bit more

Love, you're news to me  
You're a little bit more than I thought you'd be  
A mole in my well-fed lawn  
You're a nightmare beating the dawn

Oh, it hit me like never before  
That love is a powerful force  
Yes, it struck me that love is sport  
So I pushed you a little bit more

Blue, blue, black and blue  
Red blood sticks like glue  
True love is cruel love  
Red blood's a power fuel  
Sweet love, tasty blood  
My heart over floods

Oh you hit me  
Yeah, you hit me really hard  
Man, you hit me  
Yeah you hit me right in the heart

Lord, I've had my deal  
But I never quite knew how it feels

When love makes you wake up sore  
With fists that are ready for more

And it hit me that love is a game  
Like in war no one can be blamed  
Yes, it struck me that love is a sport  
So I pushed you a little bit more

Oh, blue, blue, black and blue  
Red blood sticks like glue  
True love is cruel love  
Red blood's a power fuel  
Sweet love tasted blood  
My heart over floods

Man, you hit me  
Yeah you hit me really hard  
Baby, you hit me  
Yeah you punched me right in the heart

And then you kissed me  
And then you hit me  
And then you kissed me  
And then you hit me

Oh, you haunt me with your violent heartbeat at night  
Oh, you strike me with your silence baby, tonight  
Why you haunt me with your violence baby, come hit  
me  
You haunt me with your violent heartbeat
