Baby boy, your face is pretty  
And your life's a toy  
Master man, I'm never better  
Than your latest plan

Poor Donee, what are you gonna try to be?  
Where are you gonna go without me now?

I've been you mother, I've been your father  
Who can ask me for more?  
I've been your sister, I've been your mistress  
Maybe I was your whore, who can ask me for more?

Superstar, I've tried to educate  
Your childish heart  
Made your bed and I was in it  
When your faith was dead

Poor Donee, what are you gonna try to be?  
Where are you gonna go without me now?

I've been you mother, I've been your father  
Who can ask me for more?  
I've been your sister, I've been your mistress  
Maybe I was your whore, who can ask me for more?

Sweetie pie, I'm your personal pro, you know  
You know what number to try, when to cry

I've been you mother, I've been your father  
Who can ask me for more?  
I've been your sister, I've been your mistress  
Maybe I was your whore

I've been you mother, I've been your father  
Who can ask me for more?  
I've been your sister, I've been your mistress  
Maybe I was your whore, who can ask me for more?  
You can ask me for more
