

## Cardigans "Cloudy Sky"

Visit "[Cloudy Sky](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I'd catch some stars for you  
And just for you  
I'd paint the gray sky blue  
And just for you

I'd catch some stars for you  
And just for you  
And I'd paint the gray sky blue  
And just for you

So don't tell me you want the rain  
From a cloudy sky

To wash away the pain that I've given you again  
I've always tried to find what satisfies your mind  
But I will never know where you are to go  
But I want you to know  
Do you want a golden ring I would buy you anything

I'd read some poems for you  
Just for you  
I hope they won't make you blue  
Like they used to do

So please tell me they're like the rain  
From this cloudy sky

That wash away the pain that I've given you again  
I've always tried to find what satisfies your mind

Don't tell me you want the rain  
Don't tell me you want the rain  
From this cloudy sky

To wash away the pain that I've given you again  
I've always tried to find what satisfies your mind  
But I can never know where you are to go  
But I want you to know  
Do you want a golden ring I would buy you anything
