On a roof below the moon
Nearby a park bench in the sun
Upon the stairway to your room
Why don't you wrap your life around?
Those certain words I just found
I just found
Found
I just found

I wear your golden ring inside
Suits me very fine
I wear your golden heart in mine
Suits me very fine
I wear your golden ring inside
Suits me very fine

A backseat sofa in the dark
Upon a viewpoint in our town
Nearby a fountain in a park
Why don't you wrap your life around?
Those certain words I just found
I just found
Found
I just found

I wear your golden ring inside
Suits me very fine
I wear your golden heart in mine
Suits me very fine
I wear your golden ring inside
I wear your golden heart in mine
I wear your golden ring inside
And life is very fine
Uh
