"Rise And Shine"

Visit "[Rise And Shine](#)" on MotoLyrics.com

i want to be alone for a while
i want earth to breathe to me
i want the waves to grow loud
i want the sun to bleed down
to bleed down

see the waves go down
see the moon alone
see the world unshown
i raise my head and whisper

rise & shine
rise & shine my sister

i want to see the wounded moon
i want the sea to break through
i want it all to be gone tomorrow
so i've come to say goodbye
say goodbye

see the waves go down
see the moon alone
see the world unshown
i raise my head and whisper
