seems hard to understand  
I think no one can  
not anyone I know  
no, wait I think I know  
one who does  
at least that's what he says

and what I mean is what I say  
but I've got thoughts left anyway

seems hard to understand  
I'm not sure myself

sure of what to think  
I know I should trust myself  
at least that's what he says

seems hard to understand  
I think no one did  
not anyone I knew  
well, I thought I knew  
one who did  
it was only as he said...
