Cold chills, my baby makes cold chills go all over me  
Cold chills, cold chills goes all over me  
Ev'rytime I lay my hand on her brown body, cold chills  
goes all over me

Baby, I say please don't run around, baby, please don't  
stay out all night long  
Baby, please don't run around, baby, please don't stay  
out all night long  
When you come home drunk and you know that's what  
you've done

My baby went out last night, my baby got drunk  
That's one thing, God knows, I just can't stand  
She makes cold chills, she make cold chills go out all  
over me  
Ev'rytime you go out and get drunk, it makes cold chills  
go all over me

I got drunk last night, baby, I got drunk to keep from  
cryin'  
Lord, I got drunk last night, baby, I got drunk to keep  
from cryin'  
You didn't come home last night, baby and that lasted  
four days
