Lay your head on my shoulder; it'll be alright in the morning.

Oh yes it will.

Said I'll try to ease your pain, I'll hold your hand through stormy weather.

Oh yes I will, yes I will.

Lay your head on my shoulder; be by your side, I'll make it better.

Don't you hear me love, hear my love.

Like a knight in shining armor, I'll save the day cause you're my lover.

Don't you hear me hey, he-hey, hey?

Lay your head on my shoulder; I'll hold you tight even if it takes me all night.

Oh, oooh.

Dry your eyes, please don't cry, I'll wipe your tears just to see you smile.

Oh even if it's for a little while.

Eeey

Tender heart; don't let your world fall apart.

Darling, please believe there's more to life than what you see.

Lay your head on my shoulder; it'll be alright in the morning.

Oh yes it will.

Said I'll try to ease your pain, I'll hold your hand through stormy weather.

Oh yes I will, yes I will.

Oh yes I will, ye-yehhh, mhh.

OHhhhh yes I will.
