You know we've been struggling for such a long time
Working here and there just to get by
It's finally time for me to get mine
No more, robbing Peter so we can pay Paul
Or going to momma's house to make a phone call
No, we don't have to struggle at all

'Cause now everyday is feeling like Friday
I'm getting paid and doing it my way
We're finally on our way
Baby, now it's time to celebrate

Oh, live it up, we can go crazy
Live it up, you and me, baby
Live it up, live it up, live it up
We're flying high, don't want to come down
We'll let 'em know all over town
Live it up, live it up, live it up

No more, putting it in the lay-a-way
'Cause boo, I got the money today
Come on and go to the mall and let's play
Let's go, raise a toast to the days ahead
You can't take it with you when you're dead
You might as well enjoy it now instead

Oh, now, it's about to be along evening
We'll party through the rest of the weekend
We're finally on our way
Baby, now it's time to celebrate

Oh, live it up, we can go crazy
Live it up, you and me, baby
Live it up, live it up, live it up
Oh, we're flying high
We're flying high don't want to come down
We'll let 'em know all over town
And live it up, live it up, live it up

We can fly so high in the moon lit sky
'Cause there's no more cloudy days
It's so beautiful when you feel the flow

We can dance the night away

Do you remember when times were hard, oh, so hard
Through it all we've come so far, so we got to live it up
So we can just celebrate, there's no more pain
Raise your glass and feel no shame, oh, so we got to
live it up

Oh, live it up, we can go crazy
Live it up you and me, baby
Live it up, live it up, live it up
Oh, we're flying high
We're flying high, don't want to come down
We'll let 'em know all over town
And live it up, live it up, live it up

Oh, it's time to celebrate, baby
We don't have to worry no more
We don't have to struggle no more

So does it feel good to you
I know it feels good to you
We don't have to worry no more
We don't have to struggle no more

It's time to celebrate, baby
Got to live it up
