Feels like we can kiss the sky  
Baby baby we can get so high  
So high yeah, so high yeah

You're so conscious and self-aware  
I'm next to you I hold your back  
And you express pure ecstasy  
It's more than just the sex to me  
'Cause mentally, you take me there

Well I pretended to be unaffected  
You intended to be respected  
I commend your boldness  
You didn't fear being rejected

So you approached me, my lovin' remained intimidated  
Glad you did cause once you came  
You got much more than anticipated

And it's true, I've got the mind of a genius  
And every time we kiss we feel  
The magnetic fields react between us  
I think it's something to witness your vulnerability  
The definition of a real man  
He can acknowledge how he feels for me

And I'm fascinated wit' your manhood exploration  
Your transparent language how you articulate the situation  
And I can see it in your stare, in your air  
I love the texture of you hair  
Statuesque black and beautiful like classical architecture  
Yeah

Baby since the day you came into my life  
You made me realize that we were born to fly  
You showed me everyday new possibilities  
And you proved my fantasies of love could really be

Let's go to a place only lovers go

To a spot that we've never known  
To the top of the cloud  
We're floating away

Ooh this feels so crazy  
How this love is blazing  
Baby we're so high  
Walking on cloud nine

So high, so high, so high

It feels like we could kiss the sky  
Baby baby we get so high  
Baby we're so high, yes  
Baby we're so high yeah

Now maybe later we can go up to the moon  
Or sail among the stars before the night is through  
And when morning comes we'll see the sun is not so far  
And we can't get much closer to God than where we  
are

So we'll go to a place only lovers go  
To a spot that we've never known  
To the top of the clouds  
We're floating away

Ooh this feels so crazy  
Oh this love is blazing  
Baby we're so high  
Walking on cloud nine

So high, so high, so high

Feels like this love could be  
All that it's supposed to be  
Feels just like ecstasy  
Each time you're holding me

All that we've fantasized  
We've come to realize  
Baby baby baby we can touch the sky

Feels like we can kiss the sky  
Baby baby we get so high  
We were so high yes  
Baby we're so high yes

Feels like we can kiss the sky  
Baby baby we get so high  
Baby we're so high

Baby we're so high

Let's go to a place only lovers go  
To a spot that we've never known  
To the top of the clouds  
We're floating away

Ooh this feels so crazy  
Oh this love is blazing  
Baby we're so high  
Walking on cloud nine

So high, so high, so high

Said it feels real good  
Said it feels real good  
Baby baby  
Baby baby, yeah

This is how love's supposed to be  
Let's go to the moon baby  
This is how love's supposed to be  
Let's go
