In the morning when you wake up
Open your eyes to a new day
Look around at the gifts you've got
You've been so lucky along the way

Time to finish what you've begun
Have the faith, you're the one
Throw your hat high - up to the sun

Now you face the greatest test
Use the lessons that you've learned
Your goal is to be the best
And claim the prize that you've earned

Ever since you were a young man
You've kept your eye on the master plan
To reach for the top - and touch the sky

It's your destiny
To spread your wings and fly

(Chorus)
You can do it if you really try
You can do it if you really try
Spread your wings and learn to fly
You can do it if you really, really try

Keep movin' forward to stay alive
Trust your heart and you'll survive
Follow your dreams, never let them die

It's your destiny
To spread your wings and fly

Repeat Chorus...
