I, I've got to find another way

I, I've got to find another way

Put it down to no one else

Yes, I, I've got to find another way

One upmanship is a game you play

Competition is a game you say

Well, rules and rules and rules are for fools

This gravy train led by mules

Get that old stuff out of my head

A chip on the shoulder, feels like lead

And everyone has their say

But I, but I, I gotta find another way
