We could be reveling
Forever in the love you bring
And we could be wasted on
You and not count it lost

Like fools in love
We're bound to make a scene

Our hearts bleed for you, oh
Our hearts bleed for you, oh
Our hearts bleed, our hearts bleed
For you

We could burn down the days
Inside the light of your face
And we could throw the years away
And not regret the price we paid

Like fools in love
We're bound to make a scene

Our hearts bleed for you, oh
Our hearts bleed for you, oh
Our hearts bleed, our hearts bleed
For you

You have loved alive the dead and gone
And filled our thirsty veins with blood and song

Our hearts bleed for you, oh
Our hearts bleed for you, oh
Our hearts bleed, our hearts bleed
For you
